Sadik Othmane

COMPUTER SCIENCE & ENGINEERING STUDENT

Email: othmanegre123@gmail.com
Portfolio: dbleen.github.io/mon-eportfolio
Toulouse, France

Computer Science engineering student at ENSEEIHT, passionate about programming, applied mathematics, and rigorous problem-solving. Seeking technical challenges bridging software engineering, mathematical modeling, and numerical simulations.

EDUCATION

ENSEEIHT (Toulouse INP) — Present
Master's Degree in Engineering — Computer Science
Engineering program specializing in software development, language theory, relational databases, and numerical methods for complex problem-solving.

Intensive Preparatory Classes (CPGE) — Previous
Mathematics & Physics Track (MP)
Intensive 2-year undergraduate program in advanced mathematics, linear algebra, physics, and analytical problem-solving.

Scientific High School Baccalaureate — Graduated
Specialization in Mathematics
Graduated with Highest Honors, building strong analytical thinking and quantitative fundamentals.

PROJECTS & ACHIEVEMENTS

Supermarket Queue Optimization (TIPE Project) — Scientific Research Project
Mathematical Modeling & Discrete-Event Simulation
Research project designed to minimize customer waiting times while optimizing operational resource allocation within a queueing system.

- **Modeling:** Analyzed arrival patterns and service durations using probability theory and stochastic concepts.
- **Simulation:** Developed and executed a custom discrete-event simulation in Python to evaluate dynamic queue behaviors.
- **Optimization:** Conducted comparative analysis across checkout configurations to determine optimal service desk activation thresholds.

Python | Probability | Statistics | Numerical Simulation | Optimization

TECHNICAL & SOFT SKILLS

Programming:	Python, C, SQL
Tools & Databases:	Relational Databases (SQL), Git, Linux/Unix Environments
Mathematics & Methods:	Probabilistic Modeling, Applied Statistics, Numerical Analysis, Algorithms, Systems Optimization
Methodology:	Complex Problem Solving, Behavioral System Analysis, Scientific Rigor
Languages:	**Arabic:** Native | **French:** Native / Full Professional | **English:** Professional Working Proficiency
